

# PLASTIC BIN REPAIR WELDING KIT

Repair your damaged bins and tanks rather than replacing them with Malcom's plastic welding repair kit by easily welding the damaged plastic with the rugged and reliable **LEISTER** Triac S Hot Air Tool and welding accessories.

## Included in the plastic welding repair kit:

- **LEISTER** Hot Air Tool, Triac S 120V 1600W
- Tubular nozzle, 5 mm round
- Speed welding nozzle, 5 mm
- Tape welding nozzle, 25mm x 2mm
- Paint Scraper
- Roller
- Assorted welding rod, 1/2 pound

The **LEISTER** Hot Air Tool included in the plastic welding kit can be used for many applications using various heat gun nozzle accessories. Applications include repairing tarps & tents, shrinking sleeves on cables, removing labels, heating nuts and bolts, vinyl floor and roof repairs, welding plastic pipe and many other needs for a heat gun on your farm. Below are photos of a few of the many applications you may see around the farm.
